E-mail

How did you hear about this grant?

Title of research proposal

Abstract:

Please provide a short abstract summarising your proposed research in terms suitable for an informed general audience, not one specialised in your field.

Regional relevance:

Please indicate how your proposed project will contribute to a more sustainable, equitable and democratically accountable energy system in the South West of England.

Lead applicant employing institution and current appointment

Lead applicant faculty and department

Lead applicant career summary

Please summarise your relevant positions to date.

Lead applicant qualifications

Please list your degrees, both undergraduate and postgraduate. You don't need to provide school-level qualifications but do include the name of the qualification and course, awarding institution, year awarded and any additional relevant details.

Lead applicant publication record

Please list up to five relevant recent publications. Please append them as PDFs. English translations are required if the original paper is in another language.

Personal statement for non-PhD applicants

If you are not a postdoctoral researcher please provide a short statement outlining your research credentials and experience.

Research staff

Please confirm that the above named applicant(s) will carry out the research. It is not acceptable for the grant to be used to support the work of PhD students or to hire new staff to conduct the research.

Proposed research

Please give a detailed description of the research programme, including methodology. Assessors will place particular importance on the viability, specificity, and originality of the research programme and its acheivability within the March to September timescale.

Plan of action

Please indicate a clear timetable for your research. Try to be as realistic as possible but bear in mind that this plan is not expected to account for every minute and is not unchangeable.

Additional outputs

Please specify if the research will result in any additional outputs over and above the final report to the fund e.g. digital or printed resources, displays, kits etc.

Plans for publication and dissemination

Please state here what plans you have for publicising or disseminating your research including potential journals, publishers and conferences etc.

Data storage

Please provide details of how and where any digital data created during the project will be stored with appropriate methods of access. It is a condition of award that all data will be freely accessible during and beyond the project and that storage complies with data protection law.

Employer consent

Please indicate if you will need to be absent from your employing institution in order to undertake the proprosed research, and if so attach a letter or similar notice to demonstrate the necessary permission has been obtained.

Sources of funding

Have you (or your co-applicant) made any other applications in connection with this project? If so, with what results? If awarded the grant, will you be able to undertake the research without additional match funding from elsewhere?

Budget
Please note that this is a grant and therefore all VAT must be included as it cannot be claimed separately from the fund.
